### Mounting instructions for MANN-FILTER CUK 29 005

Fitted in various Mercedes-Benz vehicles manufactured from 2007

Various Mercedes-Benz models produced from 2011 onwards have a newly designed air-conditioning cabinet. Through the specific shape of this cabinet, it was only possible to fit an OES part here. With the CUK 29 005, we have now launched a MANN-FILTER in OE quality which is suitable for all relevant Mercedes-Benz models produced from 2007. It replaces CUK 2551.

↑
